Task 2 Report

- **Task – 2 : Landing Page -**

- **Project Description:**

  Your second project task involves creating a compelling Landing Page. The goal is to choose a design and theme that resonates with you, and develop a landing page for an event or launch. This could be related to a car launch, product unveiling, course introduction, university promotion, or any other topic of your choice.

- **Project Details:**
  - Choose a design and theme that aligns with the concept of your landing page.
  - Ensure that the design is visually appealing and complements the purpose of the landing page
  - Include relevant content such as an introduction, features, and a call-to-action.
  - Use engaging visuals and appropriate multimedia elements.

- **Project Timeline:**
  - Start Date: May 24th, 2024.
  - Deadline: May 30th, 2024.

- **Steps Taken:**

  - Created a folder given name is – Task2
  - Opened Task2 folder in Code Editor like VS Code
  - Created a HTML file which name is – index.HTML
  - Created a CSS file which name is – styles.css
  - Created a JavaScript File name is – script.js
  - Created Folder name is assets and inserted the images.
  - Started Creating Web app using HTML, CSS, JavaScript
  - Checked Code by clicking Run Button.
  - On browser seen the Output.

- **Challenges Faced:**

  - Using Bootstrap CSS.
  - Getting Map in HTML
  - Join two containers in one div
  - Set a Timmer counter

- Responsive page

• Solution Implemented

Uses of Bootstrap CSS in html file imported using ling tag

```html

                                    </div>
                                </div>
                                <div class="box">
                                    <div>
                                        <div class="time" id="seconds"></div>
<span>Seconds</span>
                                    </div>
                                </div>
                            </div>
```

```javascript
  // Set the date we're counting down to script code
    var countDownDate = new Date("July 27, 2024 00:00:00").getTime();
// Update the count down every 1 second
    var x = setInterval(function() {

        // Get the current date and time
        var now = new Date().getTime();

        // Calculate the distance between now and the count down date
        var distance = countDownDate - now;

        // Calculate days, hours, minutes and seconds remaining
        var days = Math.floor(distance / (1000 * 60 * 60 * 24));
        var hours = Math.floor((distance % (1000 * 60 * 60 * 24)) / (1000 * 60 * 60));
        var minutes = Math.floor((distance % (1000 * 60 * 60)) / (1000 * 60));
        var seconds = Math.floor((distance % (1000 * 60)) / 1000);
        // Display the result in the elements with class="box"
        document.getElementById("days").innerHTML = days;
        document.getElementById("hours").innerHTML = hours;
        document.getElementById("minutes").innerHTML = minutes;
        document.getElementById("seconds").innerHTML = seconds;

        // If the count down is finished, display some text
        if (distance < 0) {
            clearInterval(x);
            document.getElementById("clock").innerHTML = "EXPIRED";
        }
    }, 1000);
```

Toggle Button Function

```javascript
    $(document).ready(function() {
        // Toggle mobile navigation
        function toggleMobileNavigation() {
            var navbar = $(".navigation-holder");
            var openBtn = $(".navbar-header .open-btn");
            var closeBtn = $(".navigation-holder .close-navbar");
            var body = $(".page-wrapper");

            openBtn.on("click", function() {
                if (!navbar.hasClass("slideInn")) {
                    navbar.addClass("slideInn");
                    body.addClass("body-overlay");
                }
                return false;
            });

            closeBtn.on("click", function() {
                if (navbar.hasClass("slideInn")) {
                    navbar.removeClass("slideInn");
                }
                body.removeClass("body-overlay");
                return false;
            });

            // Close navigation on list item click
            $("#navbar > ul > li > a[href^='#']").on("click", function() {
                if (navbar.hasClass("slideInn")) {
```
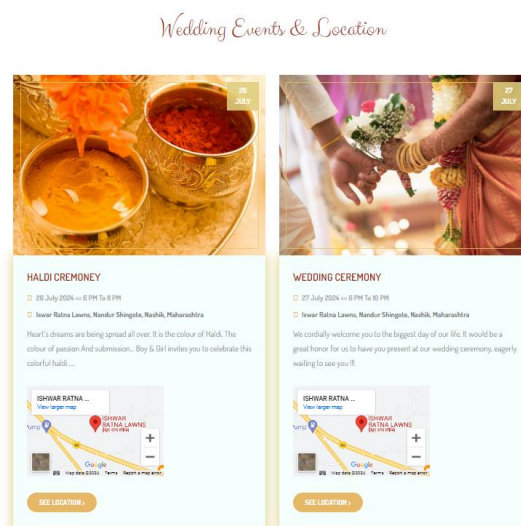

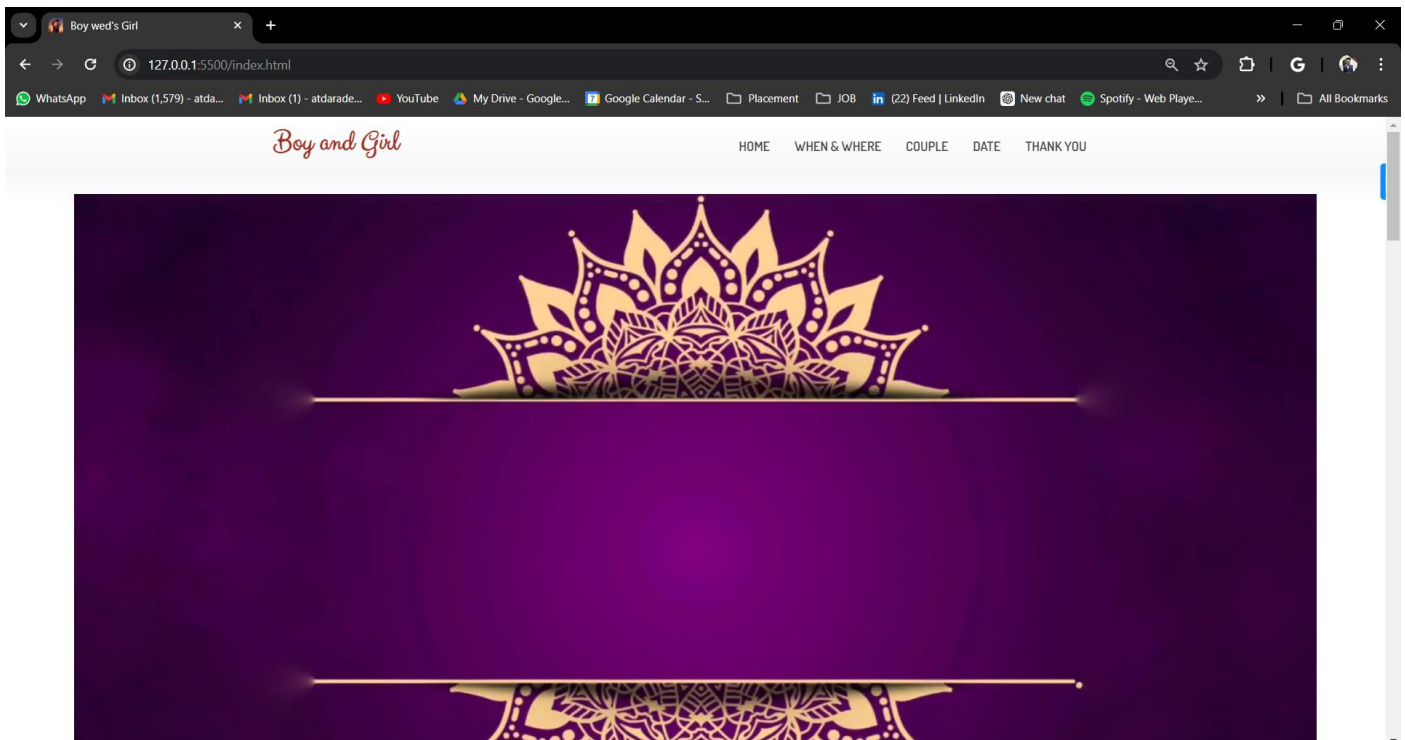

```
            navbar.removeClass("slideInn");
            body.removeClass("body-overlay");
        }
    });
}
toggleMobileNavigation();
});

● **Learnings:**

How to use the html tags.

how to make alignment in inner tags.

how set content position in anywhere in tag.

how to make objects in HTML using CSS.

how to make responsive web page for any device size support.

how to add Counter Timmer in HTML.

how to add maps in html.

how to use toggle button.

- **Task2 Planning and Progress Structure:**

Task- 2 Planning and Progress Report			
Sr. No.	**Activity**	**Status**	**Due**
1	Task assigned	On Track	24/05/2024
2	Create a folder and files and thinking topic	On Track	25/05/2024
3	Create a couple window for marriage	On Track	26/05/2024
4	Create a Timmer Counter for count the date	On Track	27/05/2024
5	Create location and details in one div	Delayed	28/05/2024
6	Adding maps in location	On Track	29/05/2024
7	Creating Navbar for navigation	Delayed	30/05/2024
8	Git Upload and Submission	On Track	31/05/2024
